CONTENTS

Tectonophysics Volume 217

Special section: Heat Flow, Rock Mechanics, and Seismicity (edited by G. Ranalli)

Introduction
G. Ramalli (Ottawa, Ont., Canada) vii
Thermal regime, rheology and seismicity in Central Japan
B. Bodri (Budapest, Hungary) and S. Iizuka (Shimizu, Japan) 1
Cutoff depth of seismicity and large earthquakes near active volcanoes in Japan
K. Ito (Uji, Japan) 11
Seismicity and thermal structure along the northern San Andreas Fault system, California, USA
K.P. Furlong and S.M. Atkinson (University Park, Pa., USA) 23
Dependence of the seismotectonic regime on the thermal state in the northern Italian Apennines
V. Pasquale, M. Verdoya, P. Chiozzi and P. Augliera (Genova, Italy) 31
Terrestrial heat flow, estimation of deep temperature and seismicity of the Kamchatka region
V.M. Sugrobov and F.A. Yanovsky (Petropavlovsk-Kamchatsky, Russia) 43
Lithosphere strength inferred from fracture strength of rocks at high confining pressures and temperatures
M. Shimada (Takatsuki, Japan) 55
Dynamic fault rupture process during the 1978 Thessaloniki earthquake, northern Greece
G.F. Karakaisis (Thessaloniki, Greece) and T. Mikumo (Kyoto, Japan) 65
A study of hydrothermal convection in saturated porous media
V.P. Trubitsyn, V.V. Nikolaichik (Moscow, Russia) and W.R. Jacoby (Mainz, Germany) 73
Fluid overpressures and pressure solution in the crust
P. Gavrilenko and Y. Gueguen (Strasbourg Cedex, France) 91
Porosity diffusion in fluid-saturated media
M.B. Geilikman (Moscow, Russia), T.J.T. Spanos and E. Nyland (Edmonton, Alta., Canada) 111

Regular section

Research Papers

Transition from convergence to escape: field evidence from the West Carpathians
M. Nemčok (Bratislava, Czechoslovakia) 117
Rheological and tectonic modeling of salt provinces
R. Weijermarss, M.P.A. Jackson and B. Vendeville (Austin, Tex., USA) 143

Special section: Estimation of Earthquake Size (edited by S.J. Duda and T.B. Yanovskaya)

Preface xi
Four years of automated measurements of seismic moments at Papeete using the mantle magnitude M_m: 1987–1991
O. Hyvernaud, D. Reymond, J. Talandier (Papeete, French Polynesia) and E.A. Okal (Evanston, IL, USA) 175
Strike-slip or reverse faulting earthquake: consequences on the aftershock activity and prediction of the occurrence of large aftershocks
P. Hoang-Trong and D. Rouland (Strasbourg, France) 195
Comparison of dynamic source parameters for earthquakes in different tectonic regions of the northern Cascadia subduction zone
R. Wahlström (Uppsala, Sweden) 205
Source parameters and scaling relationships of earthquakes in Israel
A. Shapira and A. Hofstetter (Holon, Israel) 217
Spectral and dynamic characteristics of strong earthquakes in the Armenia upland and adjacent areas
N.V. Kondorskaya, A.I. Zakharova and L.S. Chepkunas (Moscow, Russia) 227
HMS and spectral magnitude approaches to earthquake quantification
L. Christoskov (Sofia, Bulgaria), I.A. Kireyev, N.V. Kondorskaya, I.V. Fedorova (Moscow, Russia) and J. Vanek (Prague, Czechoslovakia) 235

Estimation of attenuation structure and local earthquake magnitude based on acceleration records in Greece
P. Hatzidimitriou, C. Papazachos, A. Kiratzi and N. Theodulidis (Thessaloniki, Greece) 243
Spectral amplitude–distance curves for P-waves: effects of velocity and Q-distribution
S.J. Duda (Hamburg, Germany) and T.B. Yanovskaya (Sankt-Petersburg, Russia) 255

Regular section

Research Papers

Simultaneous pure and simple shear: the unifying deformation matrix
B. Tikoff and H. Fossen (Minneapolis, MN, USA) 267
A statistical analysis of the spatial association of seismicity with drainage patterns and magnetic anomalies in western Quebec
A.K. Goodacre, G.F. Bonham-Carter, F.P. Agterberg and D.F. Wright (Ottawa, Canada) 285
Proterozoic crustal boundary in the southern part of the Illinois Basin
P.C. Heigold and D.R. Kolata (Champaign, IL, USA) 307
Deformation and magnetization of the Hudson Valley, eastern New York: Results of a study of calcite twinning and anisotropy of magnetic remanence in the Onondaga Limestone
F. Sierra, A. Schedl, C. McCabe and D.R. Robbins (Baton Rouge, LA, USA) 321
Reconstitution of east-facing Variscan nappes between the Grand Banks of Newfoundland and Spain
J.P. Lefort (Rennes, France), H.G. Miller and R. Wiseman (St. John's, Canada) 331

Discussion

Cadomian subduction / collision and Variscan transpression in the Badajoz–Córdoba Shear Belt, southwest Spain: a discussion on the age of the main tectonometamorphic events
* Comment – A. Azor, F. González Lodeiro and J.F. Simancas (Granada, Spain) 343
* Repy – B. Abalos, J.I. Gil Ibarguchi and L. Eguíluz (Bilbao, Spain) 347

Book Reviews
